

American  
Association  
of  
Museums

12 October 1990

To whom it may concern:

The bill H.R. 5237, as amended and reported out by the House Interior Committee on 10 October 1990, accurately reflects agreements made between the American Association of Museums and Native American representatives regarding that piece of legislation. Therefore, the AAM is able to support passage of H.R. 5237.

If you have further questions regarding AAM's position on this matter, please do not hesitate to contact Geoffrey Platt, AAM's director of government affairs, at 202-289-1818.

Yours sincerely,

Edward H. Able Jr.  
Executive Director
