SUPPLEMENTARY INFORMATION: The proposed RMP amendment and land sale involve approximately 450 acres of public land in the vicinity of the Denton-Rawhide Mine in Mineral County, Nevada. The purpose of a sale would be to consolidate lands within and surrounding the open pit mine area into private ownership for future post-mine development, including use of the area as a landfill. As part of the RMP amendment, an EA will be prepared to analyze designation of the public land for disposal and sale of the land. Comments will be accepted throughout the RMP amendment and EA process. Prior to a sale offer, a Notice of Realty Action will be prepared and published in accordance with 43 CFR 2711.1-2. The plan amendment will fulfill the needs and obligations set forth by the National Environmental Policy Act (NEPA), the Federal Land Policy and Management Act (FLPMA), and BLM management policies. Comments, including names and street addresses of respondents, will be available for public review at the Carson City Field Office during regular business hours 7:30 a.m. to 5 p.m. Monday through Friday, except holidays, and may be published as part of the EA. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION: The purpose of the consultation meetings is to provide Native American organizations, museums and the scientific community, and the Native American Graves Protection and Repatriation Review Committee with an opportunity to consult on forthcoming regulations regarding the disposition of unclaimed Native American cultural items excavated or discovered on Federal or tribal lands after November 16, 1990.

The Native American Graves Protection and Repatriation Act provides criteria for determining the ownership of Native American cultural items that are excavated or discovered on Federal or tribal lands after November 16, 1990 [25 U.S.C. 3002 (a)]. The Secretary of the Interior clarified the ownership criteria by regulations published in 1995 [**Federal Register** Vol.60, no. 232, pages 62163–62164]. Ownership of such items is, with priority given in the order listed:

(1) In the case of human remains and associated funerary objects, in the lineal descendant of the deceased individual;

(2) In cases where the lineal descendant cannot be ascertained or no claim is made, and with respect to unassociated funerary objects, sacred objects, and objects of cultural patrimony:

(i) In the Indian tribe on whose tribal land the human remains, funerary objects, sacred objects, or objects of cultural patrimony were discovered inadvertently;

(ii) In the Indian tribe or Native Hawaiian organization that has the closest cultural affiliation with the human remains, funerary objects, sacred objects, or objects of cultural patrimony;

(iii) In circumstances in which the cultural affiliation of the human remains, funerary objects, sacred objects, or objects of cultural patrimony cannot be ascertained and the objects were discovered inadvertently on Federal land that is recognized by a final judgment of the Indian Claims Commission or the United States Court of Claims as the aboriginal land of an Indian tribe:

(A) In the Indian tribe aboriginally occupying the Federal land on which the human remains, funerary objects, sacred objects, or objects of cultural patrimony were discovered, or

(B) If it can be shown that a different Indian tribe or Native Hawaiian

organization has a stronger cultural relationship with the human remains, funerary objects, sacred objects, or objects of cultural patrimony, in the Indian tribe or Native Hawaiian organization that has the strongest demonstrated relationship with the objects [43 CFR 10.6 (a)].

The Act directs that Native American cultural items not claimed under subsection (a) shall be disposed of in accordance with regulations promulgated by the Secretary of the Interior in consultation with the Review Committee, Native American groups, representatives of museums, and the scientific community [25 U.S.C. 3002 (b)]. One section of the regulations was reserved for procedures to effect the disposition of Native American cultural items that are not claimed [43 CFR 10.7].

Participants in the consultation meetings are requested to comment on the following issues:

(1) How should the regulations deal with the distinction between cultural items for which ownership or control has been ascertained pursuant to 43 CFR 10.6 (a) but the identified lineal descendant, Indian tribe, or Native Hawaiian organization has not claimed the cultural items and cultural items for which ownership or control cannot be ascertained pursuant to 43 CFR 10.6 (a)?

(2) How long may a cultural item removed from Federal land after November 16, 1990 remain in Federal agency possession before it is considered unclaimed?

(3) What are the appropriate dispositions for unclaimed cultural items?

(4) How should the regulations deal with the management, preservation, and use of unclaimed cultural items?

Dated: September 23, 2005

Sherry Hutt,

Manager, National NAGPRA Program.
